

ISO 27701 Compliance Services

What is ISO 27701

01

- ISO/IEC 27701:2019 specifies the requirements for establishing, implementing, maintaining and continually improving a Privacy Information Management System (PIMS) management system within the context of the organization.
- It was designed to identify, manage and reduce the range of threats to data privacy and data protection.

Who is the **ISO 27701** apply to?

02

- This standard applies to all types of organizations, including public and private companies, government entities, and not-for-profit organizations, PII controllers and PII processors.
- This framework serves as a guideline towards continually reviewing the privacy of data processed by the organization.

The benefits of implementing ISO 27701

Better Risk Management

Helps you identify risks to your sensitive information and put in place measures to manage or reduce them

Better Incident Management

Helps you put in place procedures to enable prompt detection of data security breach

Enhanced Reliability

Better visibility of risk amongst interested parties, will lead to enhanced customer satisfaction

Global Recognition

Improved reputation and stakeholder confidence

Increasing Market Share

Build trust and credibility, will give you a competitive advantage in the market, helping you win more business

Comply with Regulations

Better alignment with data privacy legislations

Our ISO 27701 Compliance Services

- **Gap Analysis**
An interview-driven process that comprehensively explores your current privacy information security management system (PIMS) activities and cybersecurity controls.
- **ISO 27701 Implementation**
Our consultant will assist you in implementing the ISO 27701 within your organization, with minimum interruption of your key personnel.
- **ISO 27701 Maintenance**
After implementing the ISO 27701, our security consultants can assist you in maintaining and improving the privacy information security management system (PIMS).
- **ISO 27701 Re-certification**
We can assist you in the Re-Certification process, ensuring that all the mandatory requirements are well covered and prepare the evidence required for the Re-Certification process.

Our ISO 27701 Compliance Services

- **Policies and Procedures**
We can review and update your existing information security policies or writing them from scratch.
- **Internal Audits**
We can co-op with the internal auditor for conducting internal audits, or we can perform the whole internal audit as an independent party.
- **Security Awareness Training**
As part of the ISO 27701 requirements, we can provide you customized security awareness training programs.
- **Independent Security Assessments**
As required by the PIMS, Annex A and Annex B requirements, we can conduct different independent security assessments.

How can we assist in complying with **ISO 27701**?

Every organization has its own unique requirements, so we can manage the whole project (as a Turn-Key solution) or provide you customized services based on your unique business and operational needs.

You can scope and tailor our services as you see fit, based on your unique requirements:

- Conducting a Gap Analysis
- Implementing ISO 27701 processes
- Assist in maintaining the ISO 27701 certification
- Assist in the re-certification process
- Develop policies and procedures
- Conduct risk assessments
- Conduct internal audits
- Deliver security awareness training

Benefits of working with TITANS SECURITY

Thousands of successful audits

We've conducted thousands of successful certification projects in more than 40 countries around the world.

04

Unique methodology

We've developed a unique methodology, based on our experience, implementing the standard with minimum interruption and resources from our clients

Erez Levi, CISO at TRAX

We had a time constrain issue and needed an effective but quick process for implementing the information security management system (ISMS) as part of our ISO 27001 and ISO 27032 compliance process. TITANS SECURITY was more than glad to take this challenge and transform it into an opportunity, assisting us in achieving our goals despite the time constrain issue. I'll be gladly recommending their services to any company.

Yuval Yelin, CISO at MONDAY

To TITANS SECURITY Team – I would like to thank you for your time and effort. It wouldn't happen without you guys. We appreciate your hard work and professionalism, especially during this challenging time (COVID-19). We've successfully passed the ISO 27032, ISO 27017, and ISO 27701 certification audit, adding these precious standards to the existing ones (ISO 27001 and ISO 27018).

Clients Testimonials

Daniel Chechik, CISO at WalkMe

Titans Security has been successfully managed our entire compliance process towards ISO 27001, ISO 27017, ISO 27018, ISO 27799, and ISO 27032 audit certification for more than seven years. If you need a trustworthy partner, TITANS SECURITY is an excellent choice.

Ronen Carmona, CEO at BugSec

After thorough market research, we hired TITANS SECURITY for providing us consulting services towards ISO 27001 and ISO 27032 audit certification. We have been working with them for more than seven years, and we are happy about that decision. Their team members are true professionals, and we have completed the compliance process with minimum requirements and resources from our side.
